

Esker Partners with Fujitsu Asia to Drive Digital Transformation in Singapore Through P2P and O2C Automation

Singapore, Malaysia and Hong Kong. — March 1, 2022 — [Esker](#), a [global cloud platform](#) and leader in [AI-driven process automation](#) solutions for finance and customer service functions, today announced a partnership with [Fujitsu Asia](#), the regional headquarters for the Fujitsu group of companies in ASEAN. As part of the agreement, Fujitsu Asia will provide consultation, implementation and support for Esker's [Procure-to-Pay](#) and [Order-to-Cash](#) suites to their customers in Singapore. This alliance fully aligns with Esker's growth strategy and will enable Fujitsu Asia to further develop its service offering.

Fujitsu Asia has identified key areas on which to focus their efforts to drive market digitalisation, which include the migration of business applications to the cloud. This approach helps organisations of all shapes and sizes to become more agile, profitable and efficient in even the most volatile commercial environments.

"Fujitsu's expertise increases our opportunities to enable businesses in achieving positive-sum growth through technology adoption," said Albert Leong, Managing Director, Esker Asia. "Together we help businesses efficiently speed up their cash conversion cycle, particularly in today's hybrid working model."

This partnership strengthens Fujitsu's vision of sustainability by building trust in society through innovation and with Esker's AI-driven automation solutions, Fujitsu Asia empowers businesses to achieve even more. By leveraging technologies such as AI, machine learning and robotic process automation, they can achieve efficiency, collaboration and visibility.

"We are happy to partner with Esker to help businesses automate their financial processes and undergo their own digital transformation," said Goh Kok Tiong, Head of Application Services, Fujitsu Asia. "Through the automation of tasks, companies will be better able to prioritise their commercial opportunities and innovate with agility."
